Demonstration. Built from synthetic data.

Can the October 2026 report go to investors?

Yes: the differences are explained.

Our figures agree with the administrator on 8 of 10 checks this month, and each remaining difference has a known cause. The fund returned -0.51% against -1.04% for the benchmark.

-0.51%	+15.5%	USD 1.14bn
the month, benchmark -1.04%	year to date, benchmark +10.3%	fund size

Decisions needed

	DECISION	WHO	BY WHEN
1	Sign the reconciliation and release the pack	Fund controller	Before the investor deadline
2	Approve the market commentary	Portfolio manager	Before release
3	Confirm the explained difference clears on the next administrator statement	Operations	Next statement

The factsheet is what investors see; the checks are in the sign-off sheet; the full story is in the report.
