3. Who does what

When	What	Who
Before release	Sign the sign-off sheet	Fund controller
Before release	Add the market commentary and check the factsheet	Portfolio manager
On release	Publish the factsheet and the web page	Investor relations
Next close	Rerun with the new month and confirm that differences have cleared	Operations

4. How the files work together

- The **factsheet** and the **web page** are the only files for investors; nothing goes out until the sign-off sheet is signed.
- If a reconciliation check fails, the pack is stamped as a draft and stays with the fund controller.
- The **presentation** has speaker notes on every slide, and its charts can be edited in PowerPoint.
- The **workbook** recalculates: type a month in the yellow cell of the Control panel.
- Editing the Excel and PowerPoint files needs Office, or a free tool such as Google Sheets and Slides. Reading them does not: both are inside `00_START_HERE`.

5. What we need for the next run

The NAV, holdings, dealing activity, benchmark data and the administrator's statement for the month, and the portfolio manager's market commentary.

6. Data and access

All client data will be deleted within 10 business days of the end of the engagement (or retained for the next run as agreed).
